

Don't get left out of health reform...

Utah leaders now have a choice about whether to expand Medicaid so that people without a lot of money can get affordable insurance. Some legislators are saying NO to the Medicaid expansion, knowing there's no other option out there for this group. ***DON'T LET THIS HAPPEN.***

If you are **UNINSURED** and don't have money to buy insurance on your own...

If you are on **PCN (Primary Care Network)**...

If you have kids on **CHIP or Medicaid**...

WE WANT TO HEAR FROM YOU!!!
