We've had some time now to see how the Affordable Care Act is working. On Tuesday's AU we'll ask you what your experience has been and what you think about the ACA going forward. The Utah Health Policy Project's annual policy conference coming up on December 2nd is titled "Is It Working? Taking the Pulse on Health Reform in Utah." The conference will tackle several questions: Which states are succeeding? What's different about the 2015 marketplaces? What should Utah do to cover the Medicaid expansion coverage gap?

Our guests will include Rep. Jim Dunnigan, R-Taylorsville, Co-Chairman of the Utah Legislature's Health Reform Task Force; Katherine Howitt,

Senior Policy Analyst with Community Catalyst; and Utah Health Policy Project's Education and Communications Director, Jason Stevenson.
