The U.S. Supreme Court has upheld a key provision of the Affordable Care Act, and President Obama says the ACA is "here to stay." What's next for health care in Utah? What does this mean for you? We'll open the phone lines, email and Twitter for your comment or question and we'll look at possible expansion of Medicaid in Utah and related issues on a special edition of Access Utah. Joining us from the [Utah Health Policy Project](#) are Medicaid Policy Analyst RyLee Curtis and Randall Serr, Director of [Take Care Utah](#). Also joining the program are state Senators Brian Shiozawa and Luz Escamilla, along with State Representative Ed Redd.
