

# This is how the GOP healthcare bill will hurt Utah families

Makes 52 million Americans uninsured by 2026 - according to CBO report

Reduces financial assistance for tens of thousands of Utah families by replacing income-based subsidies with age-limited tax credits

Fact: Under the repeal bill, a Utah family of 4 in their 30s earning \$120,000 a year will pay LESS in premiums than same family making \$40,000

Raises doctor co-pays and deductibles for 72% of Utahns enrolled in marketplace insurance by eliminating cost-sharing assistance

Spikes insurance premiums by 20-30% for older Utahns [age 40+]

Penalizes Utahns with a 12-month, 30% surcharge on insurance premiums if they don't sign up—essentially a “sick penalty” because only the desperately sick will pay the extra cost

Cuts Medicaid funding by \$882 billion—leading to coverage & benefit cuts

Repeals \$1 trillion in taxes (over 10 years) on high-income earners, drug-makers, insurers, medical device makers, and executive salaries

## These are the Utahns at risk of losing their health coverage

197,187 Utahns covered by ACA marketplace insurance this year—up 12.3%

Utah communities with the highest ACA enrollment totals, including Lehi, South Jordan, American Fork, Pleasant Grove, St. George, and Draper.

400,000 Utahns—mainly kids, pregnant women, and people with disabilities—who will see drastic cuts to Medicaid coverage and benefits

167,000 Utahns who currently receive premium subsidies based on their income and family size--reducing their monthly insurance costs

142,000 Utahns who depend on the ACA's cost-sharing reductions to limit their doctor office co-pays and annual deductibles

Anyone who drops or loses employer-based insurance and waits more than 63 days to enroll again—penalized with a 30% premium surcharge for 12 months
