

Hello, \_\_\_\_\_

My name is \_\_\_\_\_ and I live in \_\_\_\_\_.

I am reaching out today to ask you to support HB207, Insulin Access Amendments.

This bill provides several solutions to increase the affordability and ease of access to insulin, including:

- Drastically reducing out of pocket costs
- Ability to purchase insulin at a deep discount through PEHP for uninsured or self-insured patients
- Flexibility for pharmacists that will ease the burden of refill issues, paperwork errors, shortages, and other pharmacy counter barriers

This matters to me personally because \_\_\_\_\_

The bottom line is that skyrocketing insulin costs are not sustainable for patients, and too many people are rationing, and skipping doses, sometimes with devastating consequences.

HB 207 not only creates limits on what patients will pay out of pocket for insulin, it also creates long term solutions to incentivize competition, lower cost, and increase access beyond copays for patients as well.

Thank you so much for your time.  
Please support HB207.
