And we’re still the least expensive state for healthcare...

Per capita personal consumption expenditures: Healthcare (2014)

Every Child in Utah Deserves a Healthy Start in Life

But Hispanic children are more than three times as likely to be uninsured as other Utah children.

Hispanic kids make up less than 17% of Utah's population, but almost half of all uninsured children.

Utah has the highest rate of uninsured Hispanic children in the country. We can do better.
