

UHPP | Utah Health Policy Project

Sustainable Health Care Solutions for Underserved Utahns

2017

KEY ACCOMPLISHMENTS

Organized dozens of events to defend the ACA and Medicaid.

In the face of chaos and confusion, 194,118 Utahns signed up for ACA insurance, 98.4% of the previous year.

Medicaid Expansion is on the ballot for November 2018.

UHPP was in the news over 160 times, every other day on average.

The assault on the health care of hundreds of thousands of Utahns is not letting up. Your help is needed to ensure that your family members, friends, and neighbors have access to quality, affordable health insurance.

Now it is time for offense. On November 6th, 2018 Utahns have a chance to put the Medicaid expansion debate to rest and pass the Utah Decides Healthcare ballot initiative, which would finally close the coverage gap that has left too many of our hardworking neighbors without access to healthcare.

We need your support, both financial and otherwise, to expand coverage to all Utahns.
